Dear Mr. Dupasquier

It is my pleasure to recommend the construction services of Newton Enterprises.

The company acted as a general contractor for the construction of a 48' x 42' insulated, metal-clad shop. The quotation and project development phase was smooth. Len Dupasquier, who oversaw the project, was excellent for prompt communication and reliable coordination.

I visited the site almost every day during the construction phase, and can verify that the workmanship of the concrete and in-floor heating, the 2x6 walls and trusses, insulating, and metal cladding are all of top quality. After building completion, any minor deficiencies were accounted for in a user-friendly and dependable manner.

Please consider Newton Enterprises for your construction needs. I recommend them and look forward to working with them again.

Sincerely,

James Frey

Representative for Parkland Crop Diversification Foundation
